

Dear Millburn Township Officers,

My name is Yuxin Qian (Jenny), I am a student at Drew University majoring in Studio Art, and I see the opportunity in helping change the outlook of the township that I love from the beginning of my college life. Millburn is a township that I visited throughout my college life; as a senior, I finally settled in the township that I loved. Millburn is a township that I find warmth, and it is also a township that contains citizens from many places. there are a variety of opportunities for citizens who live here. Living in Millburn, I feel my life is full of excitement. I wish to pass on the excitement to all people that drive bikes or walk through Millburn Township.

In order to add more warmth or excitement to the township, I propose to place my “Coffee Dream” painting on Millburn Ave. In my painting you will see a hand holding a large cup of coffee, and on the side of the coffee cup, there are lots of mini cups of coffee. Inside each cup of coffee, I will design different milk foams, such as animals, angels, and smiles to create a sense of delight or excitement or joy for Millburn citizens. Millburn is a beautiful place to have some leisure activities, and there are several coffee shops in the town and lots of restaurants where people can enjoy their life. As a new resident in Millburn during the pandemic, I still feel that excitement and warmth that the town provides to me. Most importantly, social distancing does not affect people’s enthusiasm for enjoying life in Millburn.

If I have the pleasure to enhance the wall drawing, it will take me about two weeks; however, it depends on the weather. The budget would consist of purchasing the wall paint, estimated around \$400, the budget might go higher because it is in the outside condition. I am going to be using the Sherwin Williams Super Paint, which is made of acrylic and also contains a primer. This paint will make sure that the artwork stays longer in the outside condition. I would be honored and grateful if I have the chance to improve the township of Millburn.

Best regards,

Yuxin Qian
